

Dear Mr. Wright;

RECEIVED BY CIA
PUBLIC INVOLVEMENT
REF: RO-0391
RECEIPT DATE: OCT 21 2002

I am writing to you to express my concern about the future of the aluminum industry in the N.W. after fifty years of Co-Operation with the B.P.A. it would be a shame to see this industry fall by the wayside because of some ill-founded fears of future power shortages. The aluminum industry has shown that it is willing to work with the B.P.A. to find a solution to the current situation and provide an equitable power market in the future. Please take into consideration the industry's willingness to work with you, during future negotiations on power allocation. The N.W.'s unique situation in the world. Aluminum market is tied together with power generation from the 1940's into future generations.

Thank you for hearing me out.

Mark Gilil
