RECEIPT DATE: OCT 21 2002

Dear Steven Wright

For more than 60 years BPA + the aluminum industry have been partners in this state. And now you are considering less for aluminum workers — less future — less security.

Hasn't our economy suffered enough? Rural Washington hinges on such an industry.

Please take action — Save the industries that remain in this state.

The future of many people rests in your hands.

Sincerely,

M. Reed
